

## Want to know more about rhyme and other phonological awareness skills?

*Phonological awareness skills begin to develop in the preschool years...you can start working on these skills around age 3 ...however, older children can benefit from these skills as well.*

**Read more at [speechandlanguagekids.com](http://speechandlanguagekids.com)**

*...Explicit phonological awareness instruction is highly effective for developing phonological awareness in children, which in turn prepares them to read words and comprehend text.*
